

75. Patient advocacy for thrombosis

Last Updated: 9/27/2004

Q: “How can I get involved into patient advocacy for thrombosis and thrombophilia?”

A: A national patient advocacy group formed 1 year ago (NATT = National Alliance for Thrombosis and Thrombophilia) – please see [Q/A 36](#). NATT very much needs financial and volunteer support to get further off the ground. Please see attachments for (a) a description of NATT ([75a.pdf](#)) and (b) ([75b.pdf](#)) details as to how you can help financially or as a volunteer..
